

Introduction BCM Specialist

Website: www.bcmspecialist.nl

BCM Specialist provides audit, advice, implementation and interim services in the field of business continuity management (BCM). We have a pragmatic attitude and deliver BCM solutions that are practical and fit for purpose in the event of an actual calamity or disruption of services.

Through a network of specialists and partnerships, we also provide support in the field of information security, 24/7 crisis support, fall-back locations and crisis management & mass notification tooling.

Our services

Below you will find a brief explanation of our services:

BCMS implementation

We provide complete business continuity management system (BCMS) implementations from start to finish. We have a pragmatic approach and use the ISO22301 BCMS standard as guidance. If desired, we can even guide your organization through the ISO-certification process.

Response plans

We provide a wide variety of tailor-made response plans that are fit for purpose in the event of a calamity, disruption of services or any other type of crisis situation. Examples are plans for crisis management, crisis communication, business continuity, IT disaster recovery, location loss, cyber crisis, pandemic, recall and many other crisis scenarios.

Audit

We offer audits and quick scans around BCM and information security. For example assessing your business continuity plan (BCP), the maturity level of your BCMS or an IT audit. We can even guide you towards an ISO22301 or ISO27001 certification.

Our consultants are statutory accredited auditors (RE and CISA) and affiliated with the Dutch profession association of Registered EDP Auditors (NOREA), the Information Systems Audit and Control Association (ISACA) and the Business Continuity Institute (BCI), the international membership and certifying organization for business continuity, resilience and crisis management professionals.

BCM Specialist

Advise

For advise in the field of business continuity you must contact the BCM Specialist. Whether it concerns advise on fallback scenarios or the implementation of the ISO22301 BCMS standard. Our independent BCM advisors are happy to advise and assist you.

Business Continuity as a Service

We deliver Business Continuity as a Service (BCaaS) to unburden organizations in their business continuity management. This includes the initial proper setup and maintenance of a BCMS, the performance of periodic reviews, awareness campaigns and the organization of crisis exercises. We provide experienced Business Continuity Managers on an interim basis for a few hours a week up to full-time.

Training and coaching

We provide ISO22301 business continuity trainings on behalf of the NEN (Dutch Standardization Institute). You can also contact us for in-company BCM training and coaching of your employees involved in the implementation of business continuity.

BCM Specialist is registered as recognized teacher for vocational education in the Teachers Register of the CRKBO, the Dutch central register for higher professional education and complies with the quality code for teachers in short-term professional education.

Continuity test and crisis exercise

BCM Specialist can deliver any type of business continuity test and crisis exercise for you. From crisis management simulation for your crisis team to an extensive field exercise in which, for example, a fallback solution is tested in practice.

24/7 crisis support / tooling and other services business partners

Through our network of business partners, we can provide business continuity related solutions such as crisis management & mass notification tooling, 24/7 crisis support and fallback solutions for office environments. We can also support you in the field of information security, privacy and project / program management.

Nominated for best continuity & resilience consultant of Europe

BCM Specialist is a statutory accredited member (MBCI) of the Business Continuity Institute (BCI), the world's leading profession and certification organization for business continuity and resilience professionals. In 2019, BCM Specialist was shortlisted by this institute for the European award "Best Continuity & Resilience Consultant of Europe 2019".

Extensive BCM consultancy experience

BCM Specialist has extensive BCM experience. Our client portfolio includes organizations in almost all sectors and of all sizes, both nationally and internationally. BCM Specialist also regularly gives lectures on this subject and at among others Radboud University.

BCM Specialist has also been a member of the ISO / TC 223 'Societal Security' standards committee for 5 years, which sets international standards in the field of business continuity (including the ISO22301 standard).
